

Burning Light Arts : Garden Gate Project, Barnoldswick

Project with local school, exploring the local community gardens and it's future. Sculptural copper plated 'Ideas Tree' to gather ideas from school workshops. The 'Ideas Tree' informs the content of two pupil led wall panels and large exterior wall painting.

Idea and design workshops, copper bark and paper leaves for metal Ideas Tree.

Studio construction of wire work for the 'Ideas Tree', mild steel, steel mesh, copper panels and wire.

Community Garden workshops, children designed and created two painted exterior panels.

Burning Light Arts : Garden Gate Project, Barnoldswick

Pupils approve final design for large exterior wall painting.

Details of final exterior wall painting.

Final exterior wall painting in community garden.

The design represents how the children used the site and what they hoped it would become.
