

Project Sheet : Briercliffe Mosaic Commission

Briercliffe Primary, Briercliffe

Woodland Mosaic Commission

The whole school contributed to the creation of a mosaic to liven up a dull, underused courtyard space. The beginnings of this exciting outside space has left room for further enhancements in the future!

Designs were submitted for an exterior mosaic that the whole school could help create. The woodland design was chosen to allow every pupil to contribute to the mosaic process.

Installation was direct to an exterior wall with a render base and a wooden frame.

Details were created in the studio by the artist with large coloured areas left for pupils to complete the mosaic

Once completed the mosaic was cut into smaller sections ready for installation.
